It gives me great pleasure to present the SVVU's activities and achievements in the fourth-quarter newsletter, which has been marked by academic excellence, student accomplishments, extension outreach, capacity-building programmes, and service to the farming community.

The successful conduct of the University's 13th Convocation was a landmark event in this quarter. This prestigious occasion marked an important milestone for our graduating students, who received degrees and gold medals in recognition of their hard work and academic excellence. It also reaffirmed our commitment to preparing highly skilled professionals for the livestock and veterinary sectors.

The organization of Regional Conference of Animal Nutrition; ICAR-sponsored Winter School by the Department of Veterinary Surgery, CVSc, Tirupati; Penn State-sponsored training programme on One Health Approach by SLDL, Tirupati all served as excellent platforms for updating scientific knowledge, strengthening professional skills and promoting the interdependence of animal health, human health and environmental sustainability.

Our commitment to entrepreneurship and rural empowerment was reflected through several Entrepreneurial Skill Development Trainings organized by CCVEC and KVK for farmers and rural youth. The faculty members of the veterinary colleges at Tirupati and Proddatur organized ICAR-NMRI, Hyderabad-sponsored training programmes, highlighting the University's commitment to technology transfer and skill enhancement. Kisan Melas organized at Proddatur and Tirupati attracted enthusiastic participation from farmers and stakeholders and served as an excellent platform for scientist-farmer interactions.

Our students continued to bring laurels to the University with their exemplary achievements. I wholeheartedly appreciate the students who participated in the RDC Parade, the National Livestock Hackathon, and those who secured the prestigious Madan Trophy for Edu-Excel. The students from the constituent colleges of the university actively participated in the XIV Sports, Games, Cultural and Literary Meet, which provided a valuable platform for showcasing talent, promoting physical fitness, teamwork, leadership, and cultural harmony among students. The NSS units of all colleges organized special health camps and blood donation camps while serving communities with commitment and compassion.

I am also very proud to congratulate the faculty and staff members who have received awards and recognitions at the college, state, and national levels. Their commitment to excellence continues to enhance the stature and reputation of the University.

I sincerely appreciate the contributions of all university officers, faculty, and non-teaching staff whose collective efforts have made these accomplishments possible. Let us continue to strive together for excellence in veterinary education, research, extension, and service to society.
